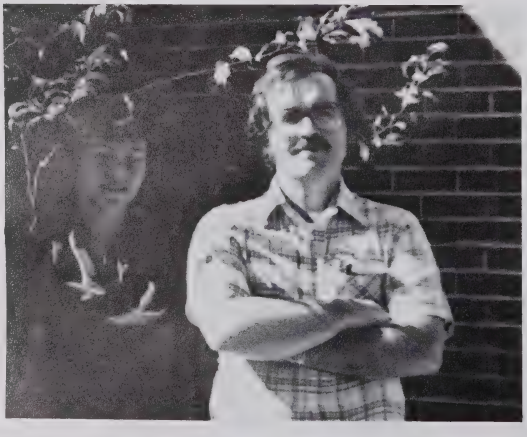
The Pen And Ink Club



The Pen & Ink Club was created two years ago by students interested in promoting the creative use of poetry, prose, and artwork among the students, faculty, and staff of Southwestern Technical College. The Club collect poetry, prose, and artwork from STC students and staff and publish the material twice per year in a magazine.

The Pen & Ink magazine is typed, edited, and published on-campus and is free to anyone who wishes to have a copy.

Pictured are Southwestern Technical College's seventh and eighth graduating classes from STC's National Park Service training program. The intensive 5½ week program is one of only two programs in the United States and covers a variety of areas, preparing students to serve as Park Rangers in National Parks across the country.

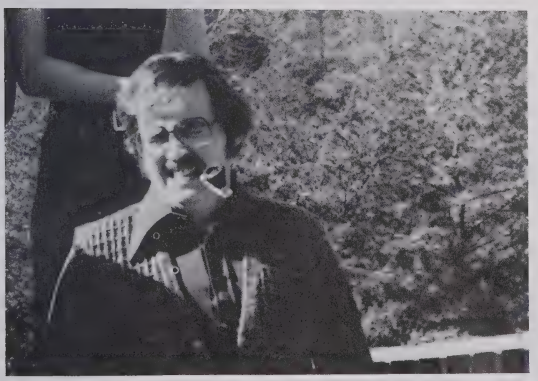
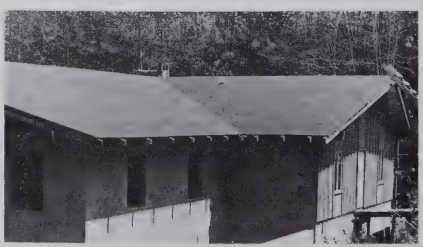
Simulation Club

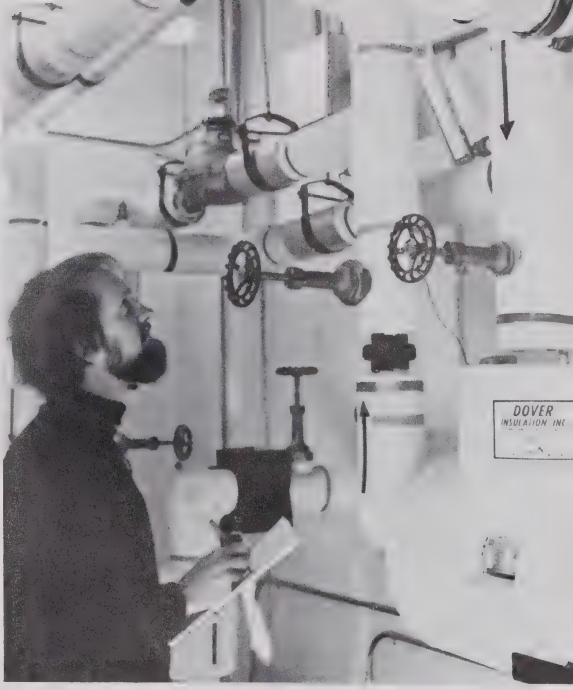


The Simulation Club was formed so students could enjoy wargaming after class. Currently, the Simulation Club is involved in fantasy role-playing games such as Dungeons & Dragons. Eventually, the club may branch off into role-playing such as Gamma Worl or Metamorphis Alpha.

Role-playing games are different from conventional games in that each player assumes the role of a character, each with different strengths and weaknesses. The games themselves are an episodic collection of "adventures," with no set "winner" or "loser".

Rattlesnake Mountain





Solar

STC's Solar Mechanics, a new technology of the future, is one of the best such programs in the Southeast. Students are trained to install Solar Heating systems, and are encouraged to be conservation-minded, ecology-minded, and economy-minded. The program uses alot of ordinary instructional skills to achieve the use of this non-poluting alternative sourse of energy.

Who's Who In American

Who's Who Among Students in American Junior Colleges exists as one of the most highly regarded and long-standing honors programs in the nation, having earned the overwhelming respect of college faculties and administrations. And for the students-national recognition by the Who's Who program marks a pinnacle of scholastic acheivement.

Junior Colleges

Over the past years more than 600 junior colleges have adopted this program as part of their annual campus honors. Selections are made by campus nominating committees and are based on decidedly above average academic standing, community service, leadership ability and future potential.

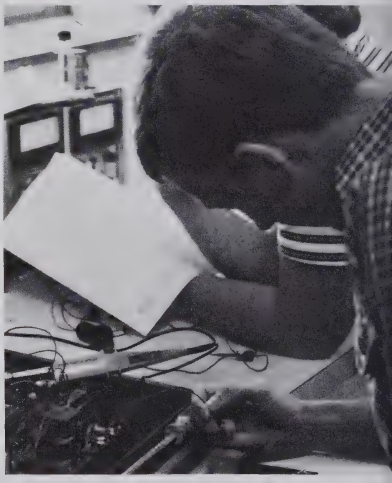
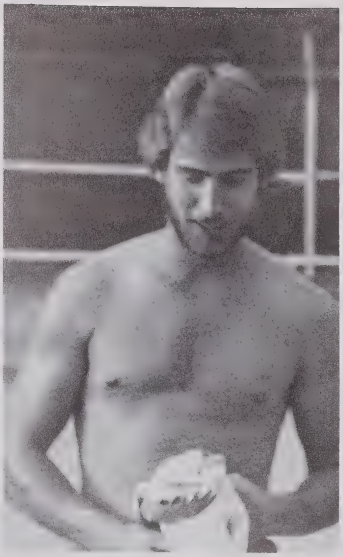
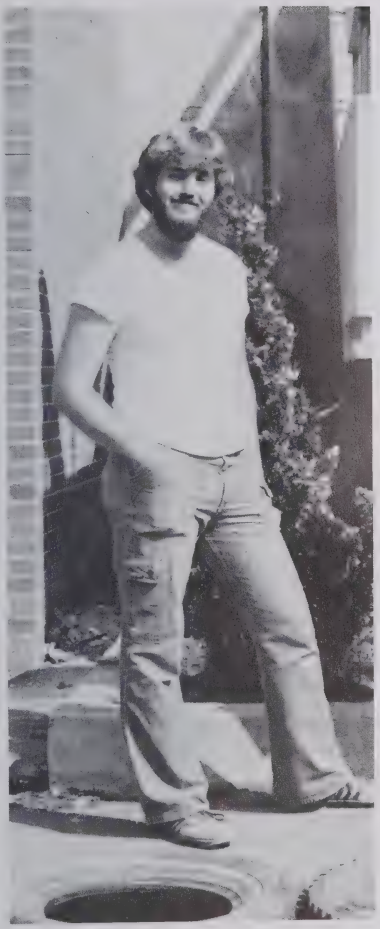
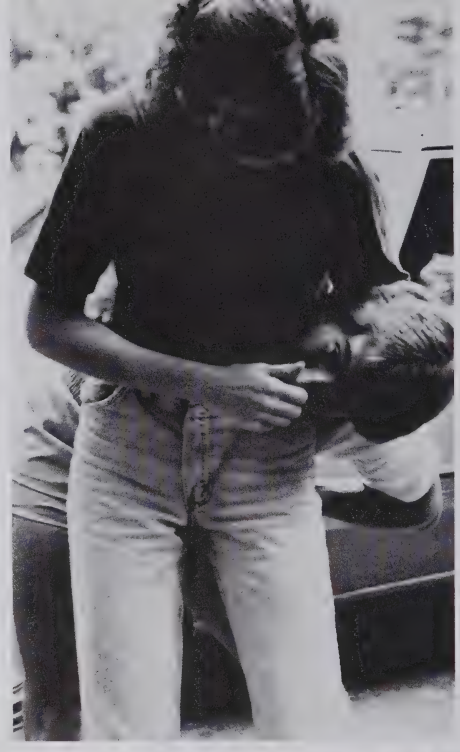
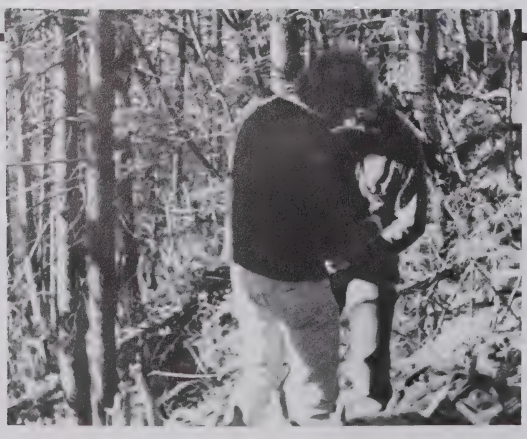
SCHOOL LIFE











Dedication

Working with students is often a complicated, time-consuming job. But there is a woman in our school who is dedicated, patient, and understanding to the students here at Southwestern. She is always ready to help, and never seems to mind all of our demands on her time. And because she is such an outstanding lady we, on behalf of the entire student body would like to dedicate the Open Door '81 to Jinnie Williams because we respect her, and we admire her-but most of all, because we love her.
